

# ECO EBSL22N

## BATTERY SCISSOR LIFT

FEATURES: Closed Fork Tips and Reinforced Chassis ensure long-lasting performance • Ergonomically designed and comfortable Handle • Single Cylinder for increased durability and less maintenance • Built-In Charger

The ECO EBSL22N Scissor Lift is a battery operated high lift truck designed to handle applications such as lifting and transporting skids and bottomless containers, loading/unloading conveyor systems, and is perfectly suited for use as a work station. Built to work like a Stackler and Pallet Truck combined, the ergonomic design of the EBSL22N helps prevent awkward bending and other stressful physical movements.

2,200  lbs CAPACITY

Fork Length: 46" • Overall Fork Width: 21.25"/27" • Lift Height: 31.5"  
Weight: 372 lbs • Extended Mast Hgt: 65.5" • Lowered Hgt: 3.3" • Overall Length: 67.5" • Fork Width: 6.5" • Aisle Width (32" x 47" Pallet): 78"  
• Turning Radius: 61.5" • Lift Motor: .6 kW • Battery Voltage: 12V/52Ah • Battery Weight: 24 lbs • Wheels/Rollers: Polyurethane
